                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   Sequence 232, Application US/09996288
Patent No. US2002017126A1
GENERAL INFORMATION:
APPLICANT: Young, James
APPLICANT: Young, James
APPLICANT: Scott, Koenig
APPLICANT: Leslie, Johnson
TITLE OF INVENTION: Methods of Adminstering/Dosing Anti-RSV Antibodies for Prophylaxi
TITLE OF INVENTION: and Treatment
FILE OF INVENTION: and Treatment
FILE REFERENCE: 10271-047-999
CURRENT APPLICATION UNDERS: US/09/996,288
CURRENT FILING DATE: 2001-11-28
NUMBER OF SEQ ID NOS: 259
SOOTWARE: PatentIn version 3.1
SEQ ID NO 232
LENGTH: 450
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Matches

Patent No. US2002017126A1
GENERAL INFORMATION:
APPLICANT: Young, James
APPLICANT: Scott, Koenig
APPLICANT: Lesie, Johnson
TITLE OF INVENTION: Methods of Adminstering/Dosing Anti-RSV Antibodies for Prophylaxi
TITLE OF INVENTION: and Treatment
FILE REFERENCE: 10271-047-999
CURRENT APPLICATION UNMER: US/99/996,288
CURRENT FILING DATE: 2001-11-28
NUMBER OF SEQ ID NOS: 259
SOCTWARE: PatentIn version 3.1
SEQ ID NO 252
LENGTH: 450
TYPE: PRT

Sequence 4, Application US/08379516

Patent No. 6083478

GENERAL INFORMATION:

APPLICANT: Allaway, Graham P.
APPLICANT: Maddon, Paul J.

TITLE OF INVENTION: No. 6083478-Peptidyl Moiety-Conjugated CD4-

TITLE OF INVENTION: Immunoconjugatee and Uses Thereof

FILE REFERENCE: 41215-A-PCT-US

CURRENT APPLICATION NUMBER: US/08/379,516

CURRENT FILING DATE: 1995-06-10

EARLIER APPLICATION NUMBER: PCT/US93/07422

EARLIER FILING DATE: 1993-08-06

EARLIER APPLICATION NUMBER: 07/927,931

EARLIER PILING DATE: 1993-08-07

NUMBER OF SEQ ID NOS: 9

SOFTWARE: PatentIn Ver. 2.1
